PROFILE

User-focused **Front-End Developer** with a pixel-perfect eye for design and a deep understanding of usability goals, great experience in building and maintaining scalable, responsive, well-documented websites and web applications.

I enjoy learning and constantly evolving, keeping abreast of new trends and best practices in software development.

A problem solver who is passionate about design, and committed to translating powerful ideas into beautiful, functional design solutions and everyday business values.

WORK EXPERIENCE

Front-end Developer, 2024 – Present

Javaplus Innovation Limited

- Creating user-friendly and visually appealing interfaces for fintech applications. This involves implementing designs provided by UI/UX designers and ensuring that the interface is intuitive and easy to use.
- Translating designs and wire-frames into high quality code with React.js, Next.js, Tailwind CSS. To create interactive web applications. These applications include features such as dashboards, transactions management, account setting and more.
- Worked closely with the back-end developers to integrate UI components with APIs and data-bases, ensuring smooth and seamless data flow and functionality.

Front-end Developer, 2023

TechProsNaija

- Translating designs and wire-frames into high quality code with React.js, Tailwind CSS, Styled Components.
- Proactively resolved bugs and glitches while continuously striving to improve the user interface, resulting in a smoother and more intuitive user experience.

- Exercised strong technical leadership skills by providing guidance, direction and support to team members, fostering a productive work environment.

Front-end Developer, 2023

Tanta Innovative Limited

- Designing a modern highly responsive web-based user interface.
- Worked closely with the back-end developers to integrate UI components with APIs and data-bases.
- Actively participated in code reviews, providing constructive feedback and implementing best practices to drive code quality and maintainability.

Front-end Developer, 2022

The Bulb Africa

- Converting Mock-ups to actual code with React.js, TypeScript, Material UI, Styled Components, Tailwind CSS, Fetching, consuming APIs, and use of state management tool, Redux.
- Continuously sought professional growth by staying up-to-date with the latest industry trends, technologies and best practices, fostering a culture of continuous learning and improvement within the team.

Front-end Developer, 2020-2021

Freelance

IP Address Tracker

- I built an IP Address Tracker using React, CSS, Chakra UI, RESTFUL APIs, Axios, React Leaflet.js
- A web app that helps user find and map the geographical location of a specific IP address.
